Best Zoom Layouts for Presenters

For Presenters:

•Speaker View

- **Benefits:** Keeps you front and center, ensuring audience focus on your delivery. Ideal for solo presentations.
- **Disadvantages:** Limits visibility of audience reactions, making it harder to gauge engagement.

•Side-by-Side Mode

- **Benefits:** Displays slides alongside your video, maintaining a personal connection while presenting content. Helps balance visuals and speaker presence.
- **Disadvantages:** Requires resizing panes for optimal viewing, which can be tricky on smaller screens.

•Gallery View

- **Benefits:** Lets you see participants' reactions during interactive segments or Q&A. Useful for gauging engagement and managing discussions.
- **Disadvantages:** Can be visually overwhelming, especially for large groups.
